2. New action tracker	5
3. Action Tracker Dashboard	9

1. REVISED ACTION ITEMS SHAREPOINT PAGE

Currently there is a “test” version of the Action Items SharePoint page on the NOP - Executive Admin Page that closely mimics the Action Items page currently in use. The main difference between this and the current page is that the dashboard is embedded to allow for quick viewing of the tracking metrics, while it still has the pinned link to the Action Tracker document (which is now a SharePoint List), a link to the embedded dashboard in the Power BI webservice, and the same document library.

If the layout and functionality of the test page are acceptable, the current Action Items page could be updated to reflect it so there would be no changes to the location of the live Action Tracker.

Current Action Items page:

The screenshot displays the SharePoint interface for the 'NOP - Executive Admin Page'. The top navigation bar includes a search bar and various site navigation links. The 'Action Items' section is highlighted, showing a list of documents. The list includes folders for 'Action Item Reports - Due within 3 Days', 'Archives', and 'Completed Action Items - Current Year', as well as specific documents like 'Admin Staff Assignment Tracker.xlsx' and 'Guide to Issue Briefs (Updated 10-25-22).pdf'.

Name	Modified	Modified By	Version
Action Item Reports - Due within 3 Days	A few seconds ago	Aziz, Saqib (Ttari) Aziz	
Archives	March 27, 2023	Oliver, Kevin D.	
Completed Action Items - Current Year	October 20, 2023	Oliver, Kevin D.	
Admin Staff Assignment Tracker.xlsx	October 18, 2024	KNUJSEN, BENJAMIN	
Guide to Issue Briefs (Updated 10-25-22).pdf	June 7, 2024	Oliver, Kevin D.	
IB Attachments (Updated 09-26-23).docx	June 7, 2024	Oliver, Kevin D.

2. NEW ACTION TRACKER

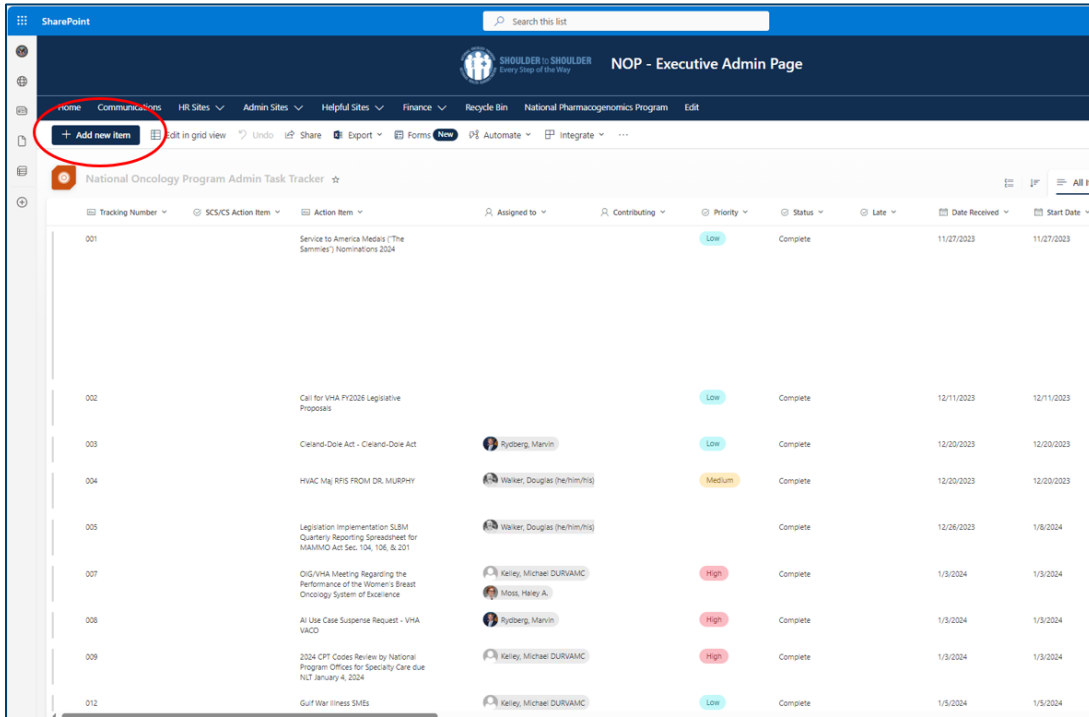

To navigate to the new Action Tracker, simply click on the link and it will open in a new window or tab (depending on how an individual's browser is configured).

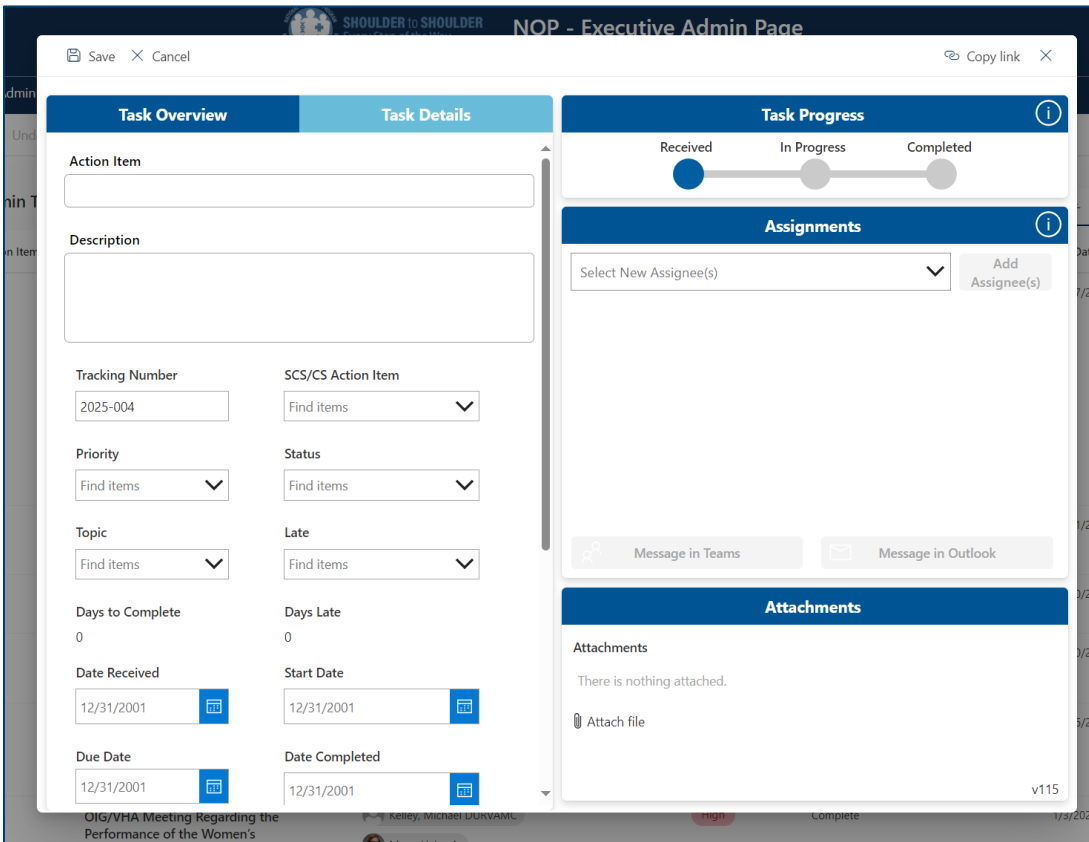

The Action Tracker SharePoint is currently populated with items from the existing Action Tracker as of 12/20/24. We will update this to include all items by the time the new system is fully live.

Although legacy data has been brought into the new action tracker, certain data hasn't properly parsed due to SharePoint's unique layout. Specifically, the "Assigned to" column will function properly with all new items because it interacts with the VA's Global Address List, but will require manual restoration for older items because they were entered with inconsistent formatting.

To add a new item to the Action Tracker, click the “Add New Item” button in the top left corner. This will open a blank form with the Tracking Number field precalculated.

Tracking Number	SCS/CS Action Item	Action Item	Assigned to	Contributing	Priority	Status	Late	Date Received	Start Date
001		Service to America Medals (The Sammel's Nominations 2024)			Low	Complete		11/27/2023	11/27/2023

v115

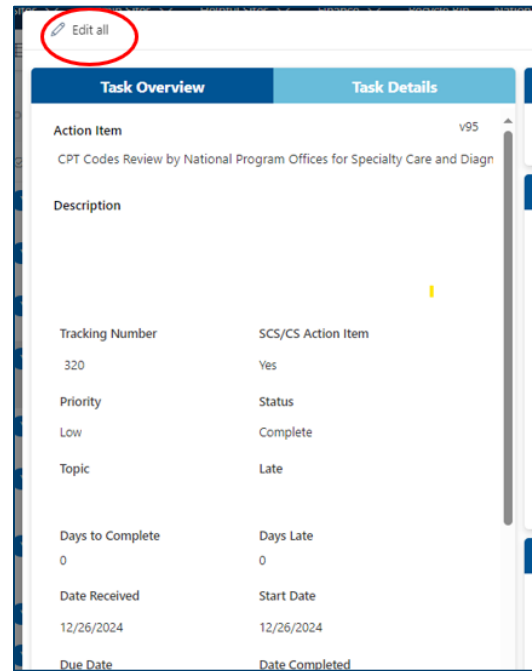

From here information about the Action Item can be entered. Some fields (which are columns in the SharePoint list) are not interactive within the form, such as “Days to Complete” and “Days Late”. These figures are calculated based on other fields and populate automatically.

After all relevant information is entered, press the “Save” button in the top left to add this item to the list, and the pop-out field will disappear. Pressing “Cancel” or “X” will **not** add the action item to the list.

To edit a given Action Item after it has been created, click on the item in the Action Item column of the list, and click “Edit all” in the top left of the pop-out.

Tracking Number	SCS/CS Action Item	Action Item
2025-004	Yes	Example Item

Action Item v95
CPT Codes Review by National Program Offices for Specialty Care and Diagnostics

Description

Tracking Number	SCS/CS Action Item
320	Yes
Priority	Status
Low	Complete
Topic	Late
Days to Complete	Days Late
0	0
Date Received	Start Date
12/26/2024	12/26/2024
Due Date	Date Completed

The Action Item can be assigned to as many individuals as desired by clicking “Add Assignee(s)” on the right side of the pop-out. Once assignees are added, checking the box next to their name will activate the ability to communicate with them via Teams or email. Clicking on either option below the names will generate a Teams message or email in Outlook with pre-populated information about the action item including its name and due date, among other details. (Note*: Teams may open a window or tab in your internet browser before opening the desktop application.)

Sending a message to an Assignee using either the Message in Teams or Message in Outlook button will update the “Last Sent Reminder Date”, as well as increase the “Reminder Count”. Entering a “Date Completed” will automatically set the “Status” field to Complete.

In the top right corner of the list, there is an alternative view to filter by preselected criteria called “In Progress – Due in 3 days”. This view filters all action items with the field “SCS/CS Action Item” set to “Yes” and has a due date within the next 3 days.

These alternative views can be customized to display any set of criteria from information within an action item. To go back to the default view, press the All Items button.

3. ACTION TRACKER DASHBOARD

The Action Tracker Dashboard items will reflect the same SharePoint list, with a comprehensive view of relevant statistics. Items in the dashboard can be searched by using the Search bar, and pressing the search field underneath the bar (Tracking Number or Action Item). Items can be filtered through any of the five filter boxes, as well as the Due Date range and/or Date Completed range.

Due to refresh limitations, new items added in the SharePoint list will take up to 30 minutes to appear in the dashboard.

All metrics included in the dashboard will react to any combination of selected filters.

The calculations for metrics that are not simple aggregates are:

- The “Completed On Time” percentage is calculated as: $\frac{\text{Items Completed Before or On Due Date}}{\text{Total Items}}$
- “Late Rate” percentage as: $\frac{\text{Late Items}}{\text{Total Items}}$

*Note: The two calculations above use the total number of items, not the total number of completed items.

- The “Avg Days Late” box will only reflect action items flagged as Late.
